The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-9 and 11-13 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 3903218 in view of Keller et al (US 5,574,082), JP 62-158737 and Fukui et al (US 5,100,930).

The rejection is maintained for reason of record with following response.

Applicant asserts that the unexpected result in 1.132 Declaration overcame the rejection, but the examiner disagrees with it.

Comparison must be based the closest prior art, and thus only variable for a comparison would be higher amount of ATP than the examples of DE since the instantly recited "comprising" permits the presence of other components. Such comparison has not been made, and thus such data fail to overcome the rejection.

The scope of showing is broader than the claimed invention if they had a probative value (the examiner does not think so though).

Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 3903218 in view of Keller et al (US 5,574,082), JP 62-158737 and Fukui et al (US 5,100,930), and further in view of Tamura et al (US 6,096,814).

The rejection is maintained for reason of record with above response.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
